

Software Development Agreement

JCFinances (QR Code Payment Feature)

This Software Development Agreement (the "Agreement" or "Software Development Agreement") states the terms and conditions that govern the contractual agreement between **CURIOX SOLUTIONS LIMITED**, having its principal place of business at **Suite 2701-08 27/F., Shui On Centre, Nos. 6-8 Harbour Road, Wanchai, Hong Kong** (the "Developer") and **[Client Company Name]**, having its principal place of business at **[Client Address]** (the "Client") who agrees to be bound by this Agreement.

WHEREAS, the Client has conceptualized a QR code payment feature (the "Software"), and the Developer is a contractor with whom the Client has come to an agreement to develop the Software.

NOW, THEREFORE, in consideration of the mutual covenants and promises made by the parties to this Software Development Agreement, the Developer and the Client (individually, each a "Party" and collectively, the "Parties") covenant and agree as follows:

1. Developer's Duties

- The Client hereby engages the Developer and the Developer hereby agrees to be engaged by the Client to develop the Software in accordance with the specifications.
- The Developer shall complete the development of the Software. The final product shall be delivered to the Client by **05 December 2025**.
- For a period **60 days** after delivery of the final product, the Developer shall provide the Client assistance in answering questions or resolving issues strictly within the scope of the specification described in **Exhibit A**, including training regarding the operation and integration of the QR code payment feature, limited to a maximum of **10 hours total** of support and training combined. Additional support or training beyond this scope shall be provided under a separate service agreement at the Developer's standard rates.

- The Client may terminate this Software Development Agreement at any time upon material breach of the terms herein and failure to cure such breach within **30 days** of notification.

2. Delivery

- The Software shall function in accordance with the Specifications on or before the Delivery Date.
- If the delivered Software does not conform to the Specifications, the Client shall notify the Developer within **60 days** of the Delivery Date with a written description of the issues. The Developer agrees to make reasonable efforts to correct any non-conformity.
- The Client shall provide a written notice of acceptance (or rejection) based on conformity to the Specifications within **60 days** of the Delivery Date.

3. Compensation

The Client shall pay the Developer for the services as per the development phases described in **Exhibit B**. Payment amounts and timelines are detailed therein. The dates listed in **Exhibit B** for each development phase are for reference only. The Developer will provide advance notice (approximately two weeks prior) and inform the Client of the actual delivery dates based on the progress of development.

4. Intellectual Property Rights

- All intellectual property rights specifically created for the QR code payment feature, including but not limited to source code and

documentation developed exclusively for this project, shall be owned by the Client.

- The Developer retains ownership of all pre-existing intellectual property, general methodologies, know-how, and technologies that existed prior to this agreement or that are generally applicable across multiple projects.
- The Developer grants the Client a perpetual, non-exclusive license to use such pre-existing technology solely in connection with the delivered Software.
- For existing technologies used in this project, including deliverables from past projects owned by the Client, both parties mutually grant permission for use in this project.

5. Change in Specifications

- Change requests may be made by the Client through a formal change control process.
- Any changes that materially alter the scope, timeline, or cost of the project must be documented in writing and approved by both parties before implementation.
- The Developer shall provide a written estimate of additional time and cost within 5 business days of receiving a change request.
- The Client's written approval is required before proceeding with any changes that incur additional costs or extend delivery timelines.

6. Confidentiality

Both parties agree to maintain strict confidentiality regarding all business and technical information obtained from the other party during the course of this agreement. This mutual obligation includes, but is not limited to, specifications, source code, business plans, methodologies, and know-how. No unauthorized use, disclosure, or duplication of confidential information is permitted. This

confidentiality obligation shall remain in effect for a period of **3 years** following the termination or expiration of this agreement.

7. Developer Warranties

The Developer represents and warrants that:

- No existing contract prohibits the Developer from entering into this agreement.
- The Software will not infringe on any third-party intellectual property rights.
- The Software will operate according to the Specifications for **60 days** after delivery. Any malfunction during that time will be remedied at no extra cost, provided that such malfunction is not caused by:
 - Modifications made by the Client,
 - Third-party integrations, or
 - Environmental factors beyond the Developer's control.

8. Indemnification

- The Developer's total liability under this agreement, including indemnification obligations, shall not exceed the total amount paid by the Client under this agreement.
- The Developer agrees to indemnify and defend the Client against claims arising from intellectual property infringement or breach of warranty only in cases of gross negligence or willful misconduct by the Developer.
- The Developer's indemnification obligations shall not apply to:
 - Modifications made by the Client,
 - Integration with third-party systems not specified in the original requirements, or
 - Use of the Software outside the intended scope.

9. Modification

No modification of this Agreement shall be valid unless in writing and signed by both Parties.

10. Governing Law

The governing law and jurisdiction for this Software Development Agreement and the interpretation of its terms shall be determined through mutual consultation and agreement between the parties.

IN WITNESS WHEREOF

The Parties have executed this Software Development Agreement by their duly authorized representatives on the dates below.
